BioShares Biotech Summit Presentation

Nyrada Inc (ASX:NYR), a clinical stage drug discovery and development company focused on innovative Transient Receptor Potential Canonical (TRPC) ion channel inhibitors, provides the enclosed investor presentation to be delivered by CEO James Bonnar at the BioShares Biotech Summit on Friday 8 August 2025.

-ENDS-

About Nyrada Inc.

Nyrada Inc. is a clinical-stage biotechnology company focused on the discovery and development of innovative small-molecule therapies, specifically targeting Transient Receptor Potential Canonical (TRPC) ion channels. The company's lead candidate, Xolatryp™, has shown efficacy in both cardioprotection and neuroprotection, and has just completed a first-in-human Phase I clinical trial. Nyrada Inc. (ARBN 625 401 818) is incorporated in Delaware, US, with limited liability for its stockholders.

Forward-Looking Statements

This announcement may contain forward-looking statements. You can identify these statements by the fact they use words such as “aim”, “anticipate”, “assume”, “believe”, “continue”, “could”, “estimate”, “expect”, “intend”, “may”, “plan”, “predict”, “project”, “plan”, “should”, “target”, “will” or “would” or the negative of such terms or other similar expressions. Forward-looking statements are based on estimates, projections, and assumptions made by Nyrada about circumstances and events that have not yet taken place. Although Nyrada believes the forward-looking statements to be reasonable, they are not certain. Forward-looking statements involve known and unknown risks, uncertainties and other factors that are in some cases beyond the Company's control that could cause the actual results, performance, or achievements to differ materially from those expressed or implied by the forward-looking statement.

Investor Presentation

BioShares Presentation - August 2025

James Bonnar – CEO

Improving Lives, Offering Hope

ASX:NYR

Authorised by Mr. John Moore, Non-Executive Chair,
on behalf of the Board.

Important Notice and Disclaimer

This presentation has been prepared by Nyrada Inc (**"NYR"** or **"Company"**). It should not be considered as an offer or invitation to subscribe for, or purchase any securities in NYR, or as an inducement to purchase any securities in NYR. No agreement to subscribe for securities in NYR will be entered into on the basis of this presentation or any information, opinions or conclusions expressed in the course of this presentation.

This presentation is not a prospectus, product disclosure document, or other offering document under Australian law or under the law of any other jurisdiction. In particular, this presentation may not be released to US wire services or distributed in the United States.

This presentation does not constitute an offer to sell, or a solicitation of an offer to buy, securities in the United States or to, or for the account or benefit of, US persons. The Company's CDIs have not been, and will not be, registered under the US Securities Act or the securities laws of any state or other jurisdiction of the United States. The CDIs may not be offered, sold or otherwise transferred in the United States except in a transaction exempt from, or not subject to, the registration requirements of the US Securities Act of 1933 and the applicable securities laws of any state or other jurisdiction in the United States. No person in the United States may, directly or indirectly, participate in the Company's Security Purchase Plan.

It has been prepared for information purposes only. This presentation contains general summary information and does not take into account the investment objectives, financial situation and particular needs of an individual investor. It is not a financial product advice, and the Company is not licensed to, and does not provide, financial advice.

This presentation may contain forward-looking statements which are identified by words such as 'may', 'could', 'believes', 'estimates', 'targets', 'expects', or 'intends' and other similar words that involve risks and uncertainties. These statements are based on an assessment of past and present economic and operating conditions, and on a number of assumptions regarding future events and actions that, as at the date of this presentation, are expected to take place.

Such forward-looking statements do not guarantee of future performance and involve known and unknown risks, uncertainties, assumptions and other important factors many of which are beyond the control of the Company, its Directors and management.

Although the Company believes that the expectations reflected in the forward-looking statements are reasonable, none of the Company, its Directors or officers can give, or gives, any assurance that the results, performance or achievements expressed or implied by the forward-looking statements contained in this document will actually occur or that the assumptions on which those statements are based are exhaustive or will prove to be correct beyond the date of its making.

Readers are cautioned not to place undue reliance on these forward-looking statements. Except to the extent required by law, the Company has no intention to update or revise forward-looking statements, or to publish prospective financial information in the future, regardless of whether new information, future events or any other factors affect the information contained in this presentation.

Readers should make their own independent assessment of the information and take their own independent professional advice in relation to the information and any proposed action to be taken on the basis of the information. To the maximum extent permitted by law, the Company and its professional advisors and their related bodies corporate, affiliates and each of their respective directors, officers, management, employees, advisers and agents and any other person involved in the preparation of this presentation disclaim all liability and responsibility (including without limitation and liability arising from fault or negligence) for any direct or indirect loss or damage which may arise or be suffered through use of or reliance on anything contained in, or omitted from, this presentation. Neither the Company nor its advisors have any responsibility or obligation to update this presentation or inform the reader of any matter arising or coming to their notice after the date of this presentation document which may affect any matter referred to in the presentation.

Nyrada Overview

- › Small molecule drug discovery and development company
- › Focus on calcium channel dysfunction
- › Lead drug candidate – Xolatryp (NYR-BI03).
 - › Potent 3rd generation TRPC 3, 6 and 7 channel inhibitor
 - › Novel and well-understood mechanism of action
 - › Solid scientific foundation
 - › Preclinical efficacy across multiple therapeutic areas
- › Development status
 - › Phase I completed (safety, tolerability, PK)
 - › Progressing into Phase IIa (myocardial infarction targeting reperfusion injury)

TRPC Channel Inhibition - Origins

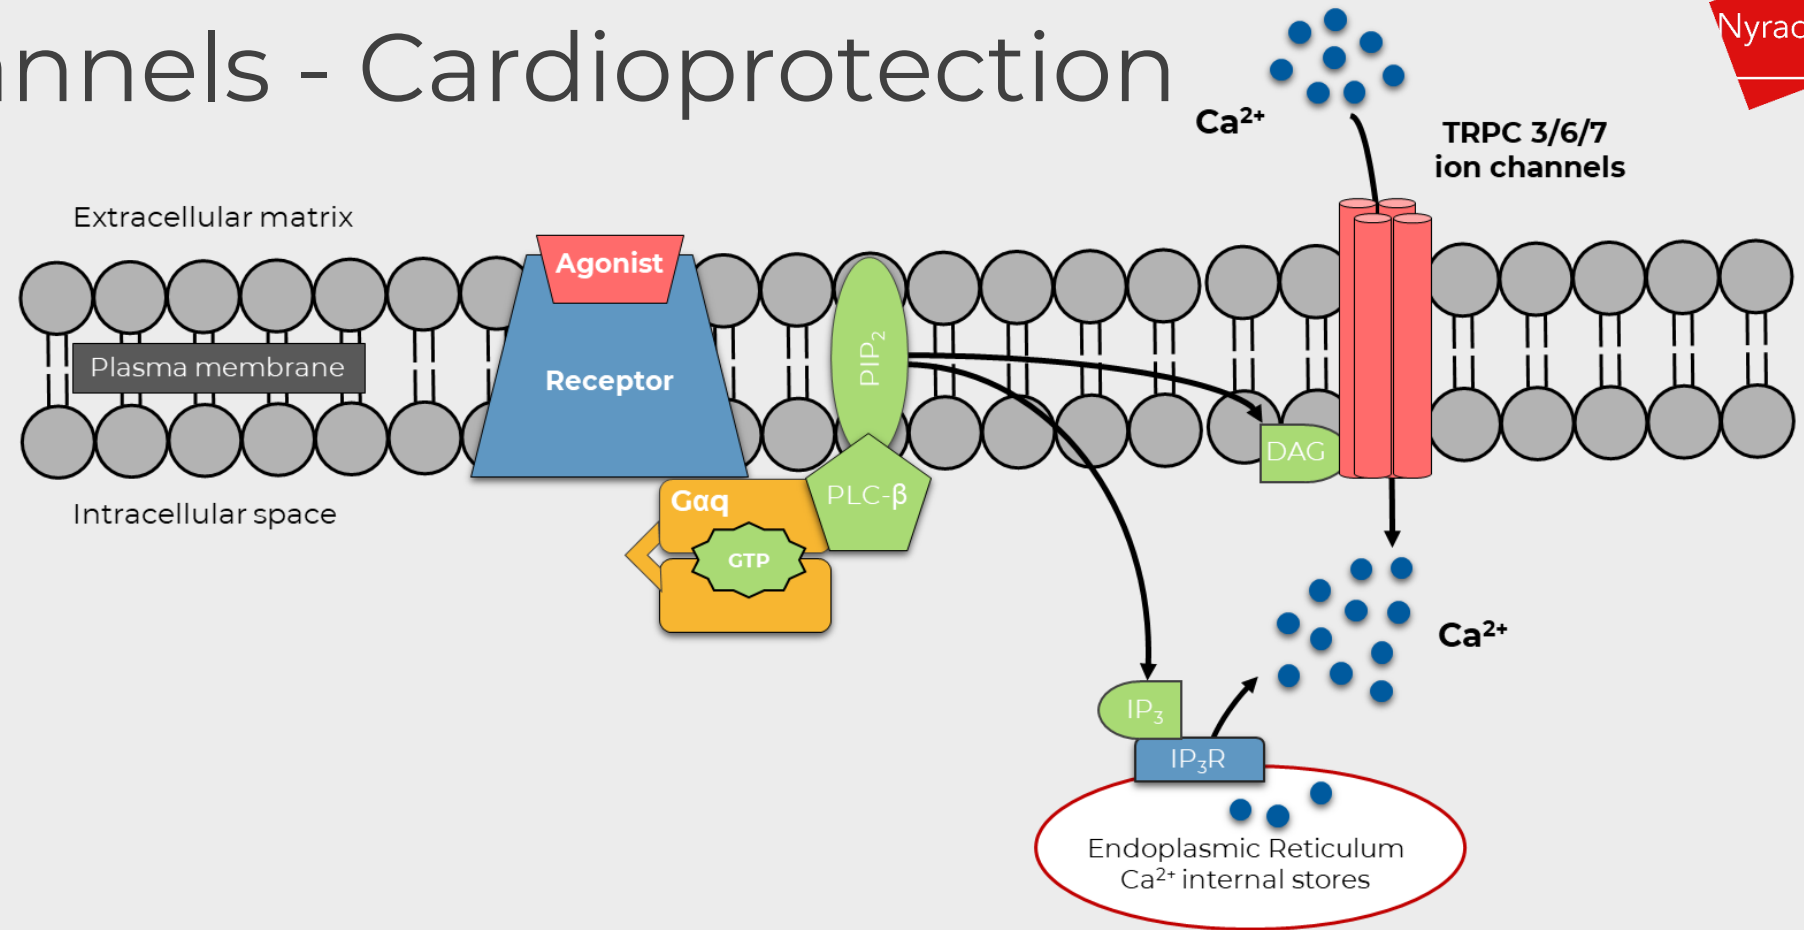

Lutz Birnbaumer

Birnbaumer's Mice

TRPC Channels - Cardioprotection

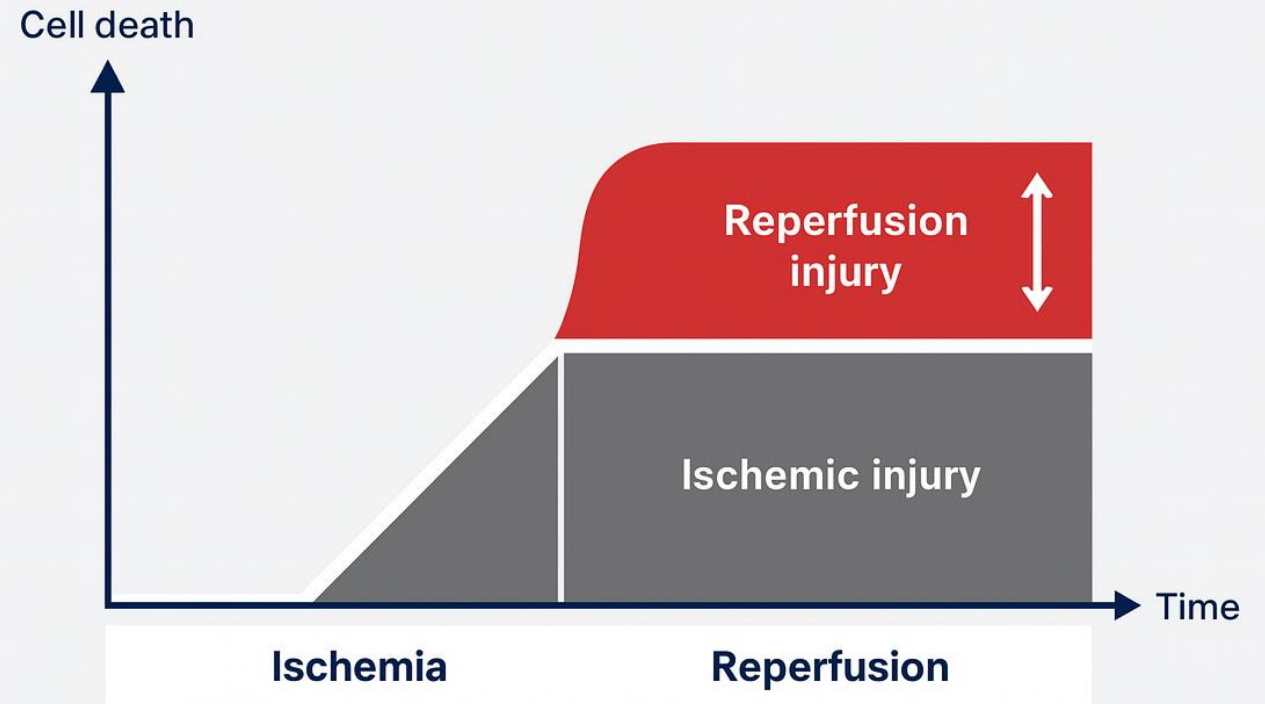

Cell Type	TRPC Activation Effect	Xolatryp Inhibition Effect
Cardiomyocytes	Calcium overload → cell death	Prevents damage, preserves function and contractility
Endothelial	Impaired repair → poor blood flow	Enhances vessel repair, reduces inflammation
Fibroblasts	Excessive scarring → stiff heart	Limits scarring, preserves flexibility

Ischemia Reperfusion – Last Cardiac Frontier

Coronary PCI (angioplasty)

Blood flow restoration

PCI (Balloon Angioplasty):

- First procedure in 1977, stents in 1994,
- Standard of care for STEMI by early 2000s

Preclinical Study 1

Key Preclinical Results:

Xolatryp showed strong efficacy limiting cardiovascular damage resulting from myocardial ischemia-reperfusion (IR) injury

- **86%** Cardioprotection
- **43%** increase in left ventricular ejection fraction
- **50%** increase in fractional shortening

Key blood biomarker markers assessed

- **42%** decrease in AST levels
- **45%** decrease in LDH levels
- **32%** decrease in Troponin I

Superior efficacy compared to FDA-approved, Captopril

Preclinical Study 2

Key Preclinical Results:

Xolatryp showed strong efficacy limiting cardiovascular damage resulting from myocardial ischemia-reperfusion injury when administered as a short-duration intravenous infusion

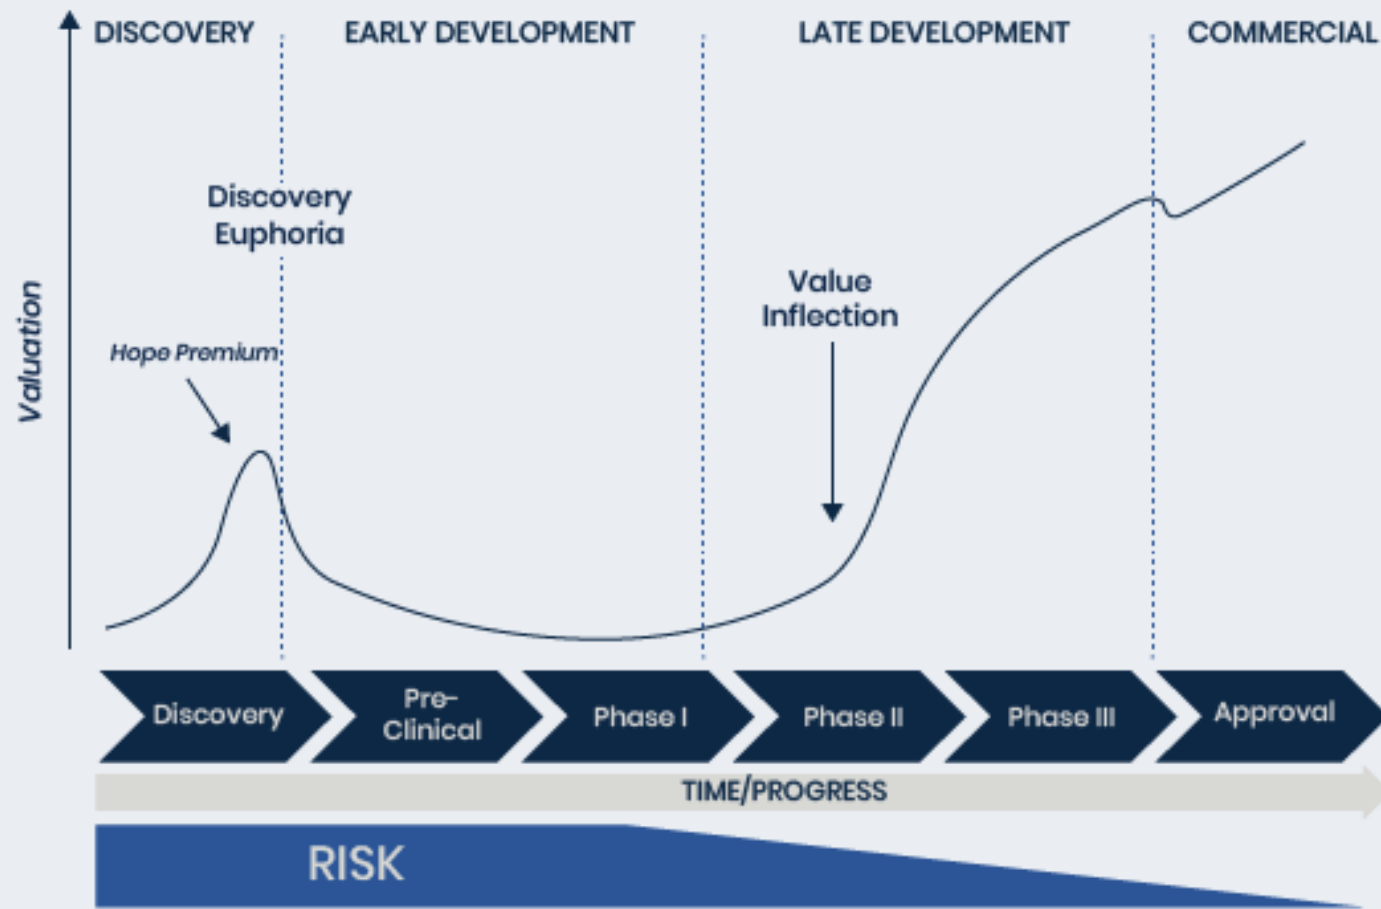

- **42%** Cardioprotection
- **88%** decrease in arrhythmias at 1 hour
- **90%** decrease in arrhythmias at 3 hours

Key blood biomarker markers assessed

- **32%** decrease in Troponin I
- **21%** decrease in ALT levels

Poised for Value Inflection

Conclusion

› **Nyrada – the company**

- › Pioneering TRPC channel inhibition therapies
- › AU\$2.93 million cash position at end June 2025
- › AU\$8.25 million capital raised in August 2025

› **Xolatryp – the lead drug asset**

- › Solid scientific foundations and well understood mechanism of action
- › Composition of matter patent pending
- › Preclinical efficacy demonstrated in myocardial infarction reperfusion injury, ischemic stroke, and traumatic brain injury (TBI)
- › Phase I (safety, tolerability, PK) clinical trial completed
- › Phase IIa (safety and efficacy) clinical trial in planning
